Hi Lee,

Your Gilt Edge Farms facility was chosen (by Cheryl) for one of the two oversight inspections. Ben will probably lead this, I may assist. Ben will contact you to arrange a date to do it, but we would prefer that it be done during a wet weather event. As usual, this is an unannounced inspection. Please do not let the facility know ahead of time.

If there are any specific biosecurity precautions we should take, other than the usual ones, so that we do not get denied access, please let us know.

Thanks!  
-Joan
